SECTION 04

## Loan Rejection & Reapplication Policy

### 4.1 Primary Rejection Reasons

**CIBIL Score Below Threshold**

Score below 650 results in automatic system rejection. Score 650–699 goes to manual review with 40% approval rate.

**FOIR Exceeded**

If total EMI obligations including proposed loan exceed 50% of net monthly income, application is rejected regardless of CIBIL.

**Multiple Enquiries**

More than 3 hard enquiries in 6 months indicates credit-hungry behaviour. Results in rejection or enhanced scrutiny.

**Employment Instability**

Job changes within 6 months of application or less than 1 year at current employer. Self-employed with less than 3 years vintage.

**Income Inconsistency**

Bank credits inconsistent with declared salary. Irregular salary credits. Large unexplained withdrawals.

**Documentation Mismatch**

Name discrepancy across Aadhaar, PAN, and salary slips. Address mismatch. Expired documents.

**Existing Default History**

Any default in last 36 months. Settled accounts (written as 'Settled' not 'Closed') result in rejection.

### 4.2 Reapplication Policy

|                      |                                                                           |
